'Black Octopus' is a name rarely given to Russia by a certain prominent Englishman. In the Black Octopus is an expression, that he stretches out his eight arms in all directions, and seizes up every thing that comes within his reach. Just as it sometimes happens the felt countries variously seen by a small fleet, owing to the too much concentration. Indeed, a Japanese proverb says: "Great services in like uncertainties." So Japanese need not to say much on the course of the present war. Suffice it to say, that the further expansion of the Black Octopus will depend entirely upon how he comes out of this war. The Japanese fleet has already practically annihilated Russia's naval power in the Orient. The Japanese army is about to win a signal victory over Russia in Corea & Manchuria. And what is to be the result? Wait & see! The ugly Black Octopus! Kwantch'ow! Kwantch'ow! for Japan. *and 1904. Kwancho Oshiro.*

此圖之內容，係根據最近之事實而繪，其意旨在於警告各國，勿使俄國之勢力，過於擴張也。俄國之勢力，自彼得大帝以來，即已擴張至極，其後雖有拿破崙之戰，而俄國之勢力，仍不稍減。近來俄國之勢力，更趨於擴張，其在東方，則佔領中國之領土，其在西方，則佔領波斯之領土，其在南方，則佔領印度之領土，其在北方，則佔領西伯利亞之領土。此種擴張之勢，實為世界各國所深慮也。故本報特繪此圖，以告世人。此圖之內容，係根據最近之事實而繪，其意旨在於警告各國，勿使俄國之勢力，過於擴張也。俄國之勢力，自彼得大帝以來，即已擴張至極，其後雖有拿破崙之戰，而俄國之勢力，仍不稍減。近來俄國之勢力，更趨於擴張，其在東方，則佔領中國之領土，其在西方，則佔領波斯之領土，其在南方，則佔領印度之領土，其在北方，則佔領西伯利亞之領土。此種擴張之勢，實為世界各國所深慮也。故本報特繪此圖，以告世人。

An aerial photograph of Seoul, South Korea, taken during sunset. The city's dense urban landscape is visible from a high altitude, with a mix of dark and light patches representing buildings and green spaces. The sky transitions from a deep blue at the top to a bright orange and red glow along the horizon, where the sun has set. The overall scene is serene and captures the city's vastness.
